Home is fully expressed when you discover the right color.

When it comes to how your siding presents itself, color is crucial. So we pay a lot of attention to what's trending and what works. Choosing your own colors can be fun, but a bit overwhelming. If you need a nudge, get ideas and tips from our color combining tool at RoyalBuildingProducts.com/ExteriorPortfolioColorCombos.

Mix and match shades to make a statement.

No matter which Portsmouth™ Shake & Shingles Siding colors you ultimately choose, we develop them all to project maximum curb appeal. Orchestrate them into the palette that sings to you, and you'll see amazing results.

Looking to add depth to a lighter featured color? Complement it with a deeper blue or tan in the porch area. Also, play with darker shades in windows and trim to add a flash of personality. If you're using a deeper shade in the main area of your exterior, add a more neutral color in the gables to bring the natural world into the color scheme.

D7 and S7 available in all colors.
D5 available in Aspen White, Driftwood, Country Beige, Clay, Greystone, Cypress, Oceanside and Canyon.
Half Rounds available in Aspen White, Country Beige and Clay.
Hand-Split: See Exterior Portfolio® Product Directory for color choices.
